

RH-T35

SURFACE CEILING SPEAKER

RH-T35 is designed with built-in step-down transformer to reduce line losses on longer distance and allows easy parallel connection of multiple speakers.

Built-in 5 inch speaker driver is designed of wide frequency response 80Hz 8kHz, rated power output is 10W/5W Max 15 Watts .

ABS grille, ABS baffle and ABS back cover are in attractive white color.

The surface mount type is designed for some special application where cutting hole in roof is impossible, so the speaker needs to be directly mounted to the surface of the roof. It is ideal choice for industrial and commercial applications in hotel, school, office and factory where background music and paging is needed
